

Upcoming TASC support needs - technical assistance and Super JTI:

Region	Site	Short description of support (e.g., CAG formation; document review(s); presentation(s); facilitation; TANA; Super JTI;etc.)
9	NECR	document review and communication to community; participation and technical assistance in community meetings; participation on conference calls with EPA and community representatives
9	AMCO	Document review, presentations at CAG meetings, attendance at EPA technical meetings, assistance with lead in soils workshops, field work observations, community website blog
9	Carson River?	Fish advisory?
9	Del Amo Montrose	Increase Community Understanding of Vapor Intrusion (VI) at the Site, Increase; community of the DNAPL/FS. Address community concerns related to groundwater; contamination, monitoring and remedial design.
9	Pacific Coast Pipeline	<ul style="list-style-type: none"> • Planning and advertising a workshop discussion series. • Reviewing and interpreting documents and data on the three remaining community interest areas: Overview of Past Health Assessment, Groundwater Monitoring Data and Soil Vapor. • Developing presentations about the four community interest areas for the community. • Traveling to the site, hosting the workshop discussion series and answering community questions. • Documenting community concerns expressed at the meeting.

9	United Heckathorn	<ul style="list-style-type: none"> • Providing information on general health implications of DDT exposure and the extent to which fish migrate in and out of the Lauritzen Channel. Skeo will develop a factsheet with this information before the March Richmond City Council meeting. • Learning more about the fishing community's awareness and understanding of fish advisories, whether they follow advisories and if not, what would assist them in helping them follow these advisories. Skeo will identify and contact existing organizations who have engaged the fishing community and talk with those who are fishing along the Richmond shoreline if necessary. • Analyzing the current fish advisory signage and making recommendations for how to simplify the signs to make them more understandable. Skeo will also recommend ways to eliminate confusion about who is responsible for the advisories and make it easier for the public to get quick and effective answers to their questions.
5	Fridley	CAG Formation Support - Facilitation of CAG meetings and sup
10	Upper Columbia River	Document reviews. We are in the RI/FS phase and performing
7	West Lake Landfill	Document reviews, tech support at public meetings, potential ROD amendment
7	Chicago Heights	Tech support at CAG and public meetings
7	Carter Carburetor	Document reviews
7	Coldwater Creek	Document reviews

*The specific work is included in the approved workplan and the project considered "mission critical" - it is imperative in maintaining the community involvement and interpreting the technical facets of EPA's work to protect health and the environment.

Dates/duration for support (e.g., meeting date; ROD comment pd.; etc.)	Is support critical / urgent? (Yes/No)	New project or continuation from previous TASC support?	Did community request the assistance? (Yes/No)	Is there Regional/site funding for project? (Yes/No)	Project Contact
ongoing throughout design phase	Yes	Continuing	Yes	Yes	Sara Jacobs
CAG meetings every two months; Ongoing field work; Proposed Plan anticipated next year; Community workshops for gardening in soils with lead anticipated in summer	Yes	Continuation	Yes	Yes	Leana Rosetti
summer/fall	No	New	No	No	Leana Rosetti
spring/summer/fall	Yes	Continuation	Yes	Yes	Dana Barton
spring	Yes	Continuation	Yes	Yes	Jackie Lane

Spring	Yes	Continuation	Yes	Yes	Jackie Lane
conference calls.					Nefertiti
April 22 to August 31	Yes	Continued	yes	no	DiCosmo
Ongoing (May-Dec)	Yes	Continuation	Yes	Yes	Laura Buelow
Ongoing (May-Dec)	Yes	New project	yes	no	Debbie Kring
Ongoing (May-Dec)	Yes	New project	yes	yes	Belinda Young
Ongoing	Yes	New project	yes	no	Belinda Young
Ongoing (May-Dec)	Yes	New project	yes	no	Ben Washburn
